How to Effectively Use Data to Guide Instruction

1

Create and use assessments that truly reflect your learning objectives.

(2)

Consider
using pretests or preassessments
as a strong
data point
for planning
instruction.

3

Take
advantage of
self-grading
tools to
create data
points and
save time
within your
classroom.

4

Make analyzing data a frequent part of your routine.

5

Establish clear cut criteria for student success.

6

Provide
support for
students who
triggered
red flags
with
established
actions.

information, click here.

7

Establish a timeline for reassessment.
