

Thoughts from #TCT16

Tomorrow's Classrooms Today

We have a problem when **what we believe** does not match up with **what we do!** [@willrich45](#) shared two important lists that we all need to consider!

Let's establish **Norms** like Mount Vernon for all of our classrooms!

Always consider **Tasks before Apps.** [@ClassTechTips](#) encouraged us to ask Why when considering creation tools. What experience are we trying to create?

Get students thinking the moment they walk into the classroom. [@MathDenisNJ](#) wants us to get our brains to become **useful, actionable tools**--to actually **think**, not just replicate!
